## **RADVISION QUALITY POLICY**

- RADVISION is committed to producing excellent quality products to ensure full customer satisfaction.
- RADVISION strives to lead the industry in product quality and value, and consistently and conscientiously produces products that meet contract specifications and customer requirements.
- Quantifiable quality parameters and indices are used to maintain quality standards and carry out regular follow-up procedures.
- Recognizing product quality is central to the company's vision, RADVISION strives to continually improve performance in order to meet its strategic objectives, face future challenges and ensure the success of the company.
- In order to improve the environment as set for the ISO 14001 standard RADVISION is committed to full regulation and statutory compliance and implementing processes to meet these requirements.
- RADVISION will regularly communicate this policy to all company employees and customers and make it available to the public.
